Assistant Director for Operations 7 December 1955

Chief, FBID

Progress Report for November 1955

OPERATIONS

1. FBIS wire service to the US delegation at the Foreign Ministers' Conference in Geneva was continued until the Conference ended on 16 November. Total wordage filed approximated 80,000.

2. The most generally significant Radio Propaganda Reports issued during the month analyzed Kaganovich's October Revolution speech and reviewed world opinion on the Big-Four Foreign Ministers' Conference. The first Radio Propaganda Report based on the German Bureau's analytic scrutiny of elite East German papers was also issued, under the title "Blueprint for a Socialist Germany." It was made possible by coverage of unbroadcast portions of the October SED Plenum proceedings. Sixty-six pages of Neues Deutschland material on the proceedings were carried in the Daily Report.

3. Instructions were transmitted to the London Bureau for preparing an analysis of Soviet radio propaganda to Austria as FBID's contribution to the Agency's study of the ten-year Soviet occupation.

4. The Daily Report increased in average size during November from 300 to 327 pages. Suggestions received in response to the annual FBID Consumers Survey were the basis for the introduction of a full table of contents in the Far East volume, and expansion of reporting of Italian and Vatican broadcasts.

5. The 1955 edition of "Broadcasting Stations of the World" printed by Government Printing Office was disseminated officially, and placed on public sale by GPO. Through error in Printing Services Division, 1,300 extra copies were printed and some type of publicity release may be desirable to minimize unsold copies.

6. Because of progressive withdrawal of the French Expeditionary Corps from Saigon, FBID requested FI to investigate in Paris the French

Declassified in Part - Sanitized Copy Approved for Release 2013/06/24 : CIA-RDP83-00586R000300100001-9

intentions in 1956 for their Saigon monitoring activity. No definitive information has been obtainable locally.

7. After examining a sample of Radio Tetuan, OCI requested full coverage for 90 days. The Air Force has not yet met its commitment to supply recordings, and it may be necessary for the Mediterranean Bureau to detail a monitor to the USIS station in Tangier to undertake this monitoring.

8. Air Technical Intelligence Center and Air Force Office of Intelligence solicited FBID views on the Soviet television monitoring project by the Air Attache in Moscow. In reply, FBID expressed disinterest in continued routine TV monitoring with present equipment and techniques, but reaffirmed interest in coverage of Soviet elite speeches carried exclusively on TV, and in development of improved video monitoring equipment. The German Bureau continues to monitor West German TV when appropriate.

9. After reviewing the Hokkaido Bureau's Chita Oblast Files, ORR expressed particular interest in the sections concerning territorial administrative divisions and locations of kolkhozes and sovkhozes by rayons and oblasts, and requested that these portions of the remaining fourteen oblast files be reproduced. Nowhere else to ORR's knowledge is there a listing of these farms by minor divisions. The balance of the information in the Hokkaido files is considered by ORR to be largely available through other sources, including FBIS publications.

10. Two employees and one former employee of FBID testified at Fort Lewis, Washington in the court martial of Lieutenant Colonel Paul Lyles, ex Korean POW. The FBID witnesses were accompanied to Fort Lewis by a representative of the General Counsel's Office.

FACILITIES

11. The two morse code—teletype converters ordered from CCS Laboratories were delivered to East Coast Bureau. Operation on for has been informal and limited, pending adjustment of equipment and orientation of FBIS personnel by the manufacturers' engineers in December.

12. Purchase of a duplex apartment building to provide quarters for one married and two single classified employees of the Saigon Bureau was completed. The price was $48,246.10, plus $3000 for minor modifications, partial furnishings, water heaters, and air conditioners.

13. Okinawa Construction:

a. Six duplex and two BOQ housing units under project

Declassified in Part - Sanitized Copy Approved for Release 2013/06/24 : CIA-RDP83-00586R000300100001-9

Declassified in Part - Sanitized Copy Approved for Release 2013/06/24 : CIA-RDP83-00586R000300100001-9

DD/I - 172 - 55 are 60% complete. Outside utilities are 46% complete.

b. Okinawa Bureau was instructed to resubmit project data on the final phase of its housing construction program, because its initial estimates exceed budgeted funds. The bureau was directed to eliminate new motor pool construction and elsewhere to reduce the scope of the project to meet available funds.

ADMINISTRATION

14. Personnel:

A. During November three persons entered on duty with FBID and one was separated. On duty strength 30 November was [redacted] eight under the current ceiling. 50X1

B. The native T/O of the Austrian Bureau was increased by seven translabor positions.

C. The position of mail and file supervisor, FBID headquarters, was reclassified from GS-5 to GS-6.

D. A request was submitted to Management Staff for the establishment of a position of Deputy Operations Officer, GS-13 on the FBIS departmental T/O, and to reduce the T/O of the West Coast Bureau by one electronic engineer, GS-11.

15. [redacted] was appointed Chief, West Coast Bureau on 3 November 1955. This completed the current reassignments of Bureau Chiefs. 50X1

16. Mr. Paul Eckel of the Inspector General's Office inspected the Tokyo, Hokkaido, Okinawa, Saigon, and West Coast Bureaus during November.

17. FBID prepared and disseminated to field bureaus a training manual, based on the O/TR training catalogue, which will acquaint classified field personnel with the objectives and the content of the courses given by or arranged through O/TR.

18. Review of the financial status of FBID revealed that $85,750 in the FY 1956 budget estimates for purchase of magnetic tape recorders will probably not be required until FY 1957, and the Comptroller was advised accordingly. At the same time the Comptroller was informed

that the FBID requirement for this equipment when available continues, and his attention was invited to the fact that there is no provision in the FBID FY 1957 budget submission for this purpose.

19. A detailed man-power utilization survey was submitted to the Assistant Director for Operations, in compliance with instructions.

20. A reports survey was completed and forwarded to Management Staff, in connection with an Agency-wide study of reports and reporting procedures.

21. [redacted] Administrative Officer, FBID, visited West Coast and Tokyo Bureaus during November, in the initial stages of a field inspection trip to all overseas Bureaus. 50X1
